

# NOTICE TO MARINERS

## Safety at Dublin Port: A Collective Commitment

At Dublin Port, safety is more than a priority—it's a core value embedded in everything we do. Through proactive measures, collaborative efforts, and a shared responsibility among all stakeholders, we strive to create a secure environment for everyone who works in, visits, or navigates through the Port.

This commitment drives continuous improvement, ensuring that safety remains at the heart of our operations and reflects our dedication to protecting people, the environment, and the maritime community.

A number of safety initiatives operate within the Port;

### Dublin SafePort

Dublin SafePort is an initiative by Dublin Port bringing together terminal operators and key stakeholders to focus on ensuring the safety, welfare, and dignity of all port users, including seafarers, workers, and visitors.

Dublin  
SafePort

By promoting a culture of safety, providing essential resources, and fostering collaboration with various agencies, SafePort aims to create a secure and supportive environment across the port. From advocating for the rights of seafarers to enhancing workplace safety, Dublin SafePort is committed to upholding the highest standards of care and responsibility. Learn more about this important initiative [here](#).

### Road Safety

Road safety is a top priority across the Dublin Port estate, ensuring a safe environment for everyone who drives, works, or travels within its boundaries. To promote safety, a strict 40kph speed limit is enforced throughout the port, with a reduced limit of 20kph in terminal areas. These measures, combined with clear signage and ongoing awareness initiatives, help minimize risks and maintain a secure and efficient flow of traffic. Learn more about road safety in Dublin Port [here](#).

### Water Safety

Dublin Port is dedicated to fostering a culture of water safety for all who enjoy or work on the water. Through active engagement with clubs, leisure users and schools, we aim to raise awareness and educate the community about the importance of staying safe on and around the water. By promoting best practices, offering resources, and supporting initiatives, Dublin Port ensures that everyone can enjoy the water responsibly and safely. Learn more about our commitment to water safety [here](#).

**Mutual Aid Group – Oil & HNS Response Program** is a collaborative initiative bringing together 15 key stakeholders across the Dublin Port Estate. This program promotes shared responsibility for responding to Oil and Hazardous Noxious Substance (HNS) spills, ensuring a unified and effective approach. Now in its second year, the group has established a dedicated building for response equipment and implemented

Captain Michael McKenna | Harbour Master | 01 January 2025

training sessions to enhance the skills of personnel involved in cleanup operations. This initiative underscores the commitment to environmental protection and collective safety within Dublin Port.

### Dublin Port Pass

The Dublin Port Pass ensures all personnel accessing the port are equipped with essential health, safety, and security knowledge.

The Dublin Port Pass is a mandatory Health & Safety and Security induction introduced by Dublin Port Company to ensure safe and secure access to the North and South Port Common User Areas.

Accessible in multiple languages—English, Irish, Filipino, Polish, Romanian, and Russian—the Dublin Port Pass is required for Port Employees, Tenants, Agents, Stevedores, Linesmen, Contractors, Suppliers, Drivers, and Visitors.

For seafarers, Dublin Port is committed to supporting safety and shore leave rights. Seafarers can complete a Dublin Port Pass or use a Shore Pass, detailed at [Dublin Port Pass for Seafarers](#).

A separate safety induction is required for access to the Oil Zone; those needing entry should liaise with their agent or the Oil Zone Fire Wardens.

### Basic Safety Rules for the Port, Quays and Terminals

Keep 1.5m back from quay wall at all times. Think water safety.

Be aware of lifting operations and moving machinery. Keep well clear.

Hi-visibility clothing must be worn.

Always use walkways provided.

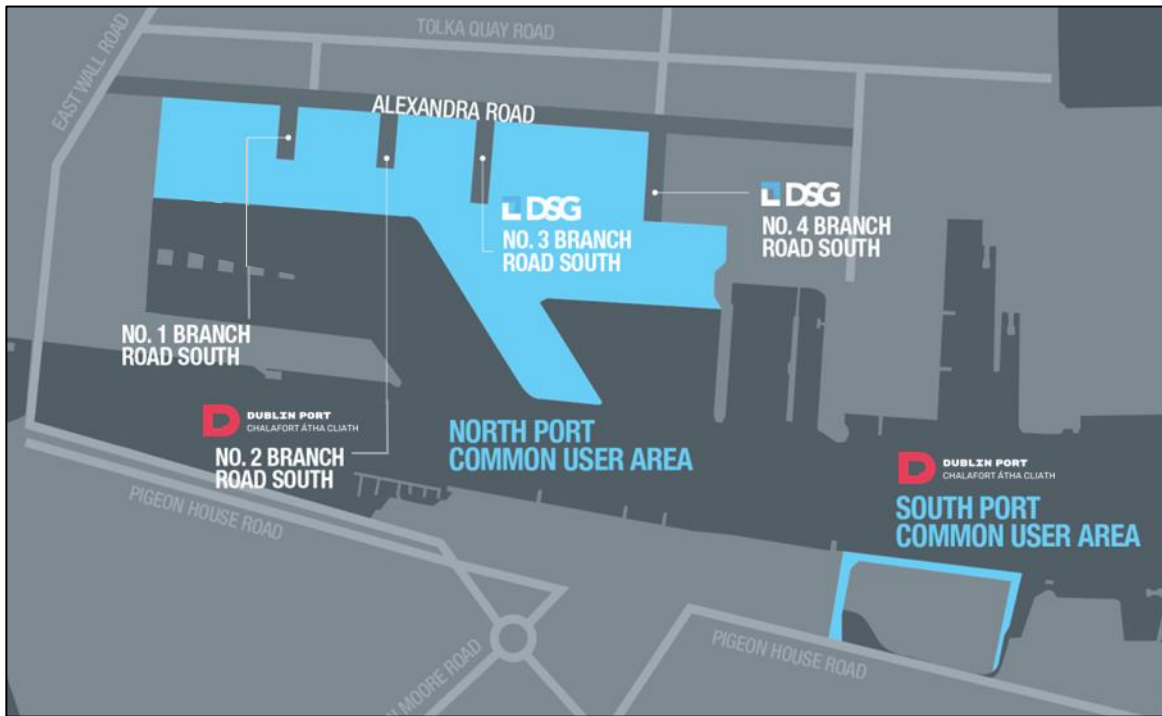

Smoking in designated areas. No littering.

Mobile devices approved usage only.

### Access to North & South Common User Areas

### North Port Common User Area Pedestrian Walkways
